

Hello everyone

I received an email from the Department of Education this morning containing the information below.

To: School Principals of all schools

Online resources that may assist families and pupils during Covid-19

The Department has collated a range of online resources which are intended to be helpful to families and pupils during the Covid-19 situation.

www.education-ni.gov.uk/articles/support-parents-and-pupils

Information is available across all sectors and we will continue to update and expand on these links going forward. In the meantime, please feel free to share this link with families / parents.

I clicked on the link and there is so much to choose from! I would particularly draw your attention to resources, some of which, are perfectly matched to the needs of our Nursery age children. Scroll down to:

How to assist your child at home

For children aged 0-4

At the bottom of this section it lists:

Stranmillis PGCE Early Years students [have produced a list of resources that you may find helpful\(external link opens in a new window / tab\)](#)

I had a wonderful time reading through all the suggested activities across the Pre-school curricular and Foundation Stage areas! I hope you have fun too and give some of them a try.

Please send us a photograph of any you particularly loved doing. We will be posting more ideas for Home Learning soon. Please also remember that you can email me any time and [I will get back to you.](#) I am also in school some days and in our cluster hub school some days. Do not hesitate to text or email if I can be of any help at all.

Miss you all! Take care.

Stephanie Gillespie
